## MINI-UHF

MINI-UHF series is a miniature screw coupling coaxial connector, which is mechanically smaller than UHF connector, but has improved in electrical performance. The MINI-UHF can be operated up to 2.5GHz, and its impedance is controlled at 50 ohms. This connector is suitable for the standard ranges of flexible cables.

### Applications:

\*cellular mobile telephone \*telecommunications \*low cost local area networks

Interface dimensions conformable to the Standards:

International: IEC 169-34

### MINI-UHF Interface Dimensions:

MINI UHF Series					
PLUG			JACK		
	Minimum	Maximum	Minimum	Maximum
