

SSMB Series

SSMB series is a micro-miniature connector supplied with snap on interface, which provides a quick connection and disconnection in small spaces. The SSMB connectors can be operated up to 3GHz, and its impedance is controlled at 50 ohms. This series is suitable for the standard ranges of flexible cables, and it's also available as a PCB mounted version.

Applications:

- *mobile communication systems
- *civil and military telecommunications
- *video equipment

Interface dimensions conformable to the Standards:

International: IEC 169-19
